

EBLUEPRINT JOINS AUSTRALIAN GOVERNMENT'S DIGITAL TRANSFORMATION OFFICE (DTO) PANEL

August 22nd 2016
Melbourne, Australia

eBlueprint is proud to announce that we have been successfully appointed to the Federal Government's Digital Transformation Office Panel as a Digital Service Professional.

The Digital Transformation Office (DTO) was established in July 2015, with the aim to lead the transformation of government services in order to deliver an enhanced digital experience for Australians.

As part of this new DTO panel arrangement in assisting the Australian Federal Government, eBlueprint will offer these services:

- Business Analysis
- Delivery Management and Agile Coaching
- Service Design and Interaction Design
- Technical Architecture, Development, Ethical Hacking and Web Operations
- Performance and Web Analytics
- Inclusive Design and Accessibility
- Digital Transformation Advisory

The eBlueprint team is thrilled with this opportunity and looks forward to collaborating with the Digital Transformation Office in the future.
