

PRESS-RELEASE

eBlueprint selected by NSW Education Standards Authority (NESA) to develop and deliver Digital Solution that will change the way the Australian Students, Teachers and Parents interact with each other

August 24th 2016
Melbourne, Australia

eBlueprint is pleased to announce that we have been successfully selected by NESA, (NSW Education Standards Authority) to implement Project Web.

Project Web will deliver the redesign, migration and decommissioning of existing NESA informational websites and content management systems to enhance their end user experience.

eBlueprint's proven track record in delivering robust digital solutions, in addition to our extensive product knowledge and high-value consultants, made us NESA's partner of choice.

We look forward to working closely with NESA on the delivery and success of Project Web
